

# 45

## Lipid Serum

Barrier Defence. Hydrate & Rejuvenate

# Aromatic Serum

### BENEFITS CARRIER OILS

#### **Peach kernel:**

- ◇ Light in texture it contains Vit A & E and polyunsaturated fatty acids
- ◇ Nourishing, regenerative, moisturizing and recommended for drier maturing skin.

#### **Soy:**

- ◇ Containing Vitamin B,E, K and essential fatty acids to maintain the efficiency of the skin barrier. Has a rejuvenation and pro-aging effect.
- ◇ Helps all skins neutralize free radical damage with a large content of antioxidants.
- ◇ Prevents dehydration and recommended for a declining lipid barrier having a moisturizing effect.

#### **Avocado:**

- ◇ Nutrient rich to include Vit A & D,E, B1 and B2 and essential fatty acids required for maintaining the skin's barrier function.
- ◇ Soothing and moisturizing it is recommended for the changes in the skin due to hormonal change.

#### **Argan:**

- ◇ Argan oil is an intense moisturizer that hydrates dry skin. It balances oily skin by neutralizing the production of oil. This means it will level the playing field for combination skin. Argan oil is non-comedogenic, it won't clog your pores and will help with acne and blemishes. It works on sensitive skin conditions such as eczema, psoriasis and rosacea.
- ◇ Contains large amounts of Vit E and Omega 6 fatty acids to support barrier function. Also contains carotenes and other antioxidants making it suitable to replenish, protect and restore vibrance in dull looking skin.

#### **Jojoba:**

- ◇ Naturally moisturizing and healing it is recommended for all skin types to include skin

### How to use.

To use an inhalation, apply a few drops of the synergy to the finger pads and hold over the client's nose. Instruct the client to take in three deep breaths.
